CORONER ROUAFF PURELED BY THE ACTIONS OF THE DEAD MAN'S BON.

Says He First Identified the Body Under an Assumed Name and Then Explained That He Did It to Avoid Newspaper Notoriety—Is the Dend Man Ludwig Levy? The suicide of a man, supposed to be Lud-

wig Levy of 834 Bushwick avenue, Brooklyn, a wealthy retired clothier, by hanging himself from a tree in Cypress Hills Cemetery, has caused a mystery which Coroner Bouaff of Williamsburg has not altogether succeeded in elearing. On Saturday night, after the dead man was

believed to have been identified as Ludwig Levr. a young man called at Rouaff's Morgue. and, after saying that his name was George T. 8mith, declared that the body was that of his father, Albert T. Smith, of 1505 Green avenue. He promised to return the following day for the body.

At 2 o'clock yesterday he appeared. He signed an affidavit that he was George Smith, and that the dead body was that of his father, Albert T. Smith of 1505 Green avenue. He received thereupon a permit for the removal of body. Then he left again, promising to send for the body before night.

Coroner Roualf waited until after 9 o'clock last night, and when George Smith did not appear the Coroner investigated the story he had told. He found that where 1505 Greene avenue should have been there was a vacant lot. Then he went to the house of

lot. Then he went to the house of Dr Max Levy of 174 McKibben avenue, a son of Ludwig Levy. Admittance was refused. The Coroner sat on the front stoop and waited for Dr Levy to put in his appearance. When Dr Levy arrived Coroner Rouaff said that he recognized him immediately as the George Smith' who had made the identification. Coroner Rouaff said that Dr. Levy admitted that the dead man was his father. Ludwig Levy, and declared that he had assumed another name to avoid newsraper notoriety, as his mother was very ill. Although Dr. Levy was said to have made this admission to Coroner Rouaff, he denied having done so when questioned by reporters, and declared to them that the suicide was not his father. He also refused to state with what

having done so when questions of the process and declared to them that the suicide was not his father. He also refused to state with what illness his mother suffered.

Gossip in the neighborhood had it that Mrs. Levy was suffering from a knife wound, but this could not be verified. It was learned, however, that early Saturday morning the neighbors heard cries followed by groans in the Levy house. In a few moments a servant ran out of the house and entered the office of ir. Keppell, across the street. Dr. Keppell hurried to the Levy house. A few minutes later Ludwig Levy lett his son's house and walked away at a rapid gait.

Dr. Keppell refused last night to state the nature of Mrs. Levy's illness, as he said he had been requested by the Levys not to do so.

BOY TRIES TO POISON HIS MOTHER Puts Muriatic Acid in Her Coffee Because She Punished Him.

ROCHESTER, Aug. 28.-Raymond Calkins, 11 years of age, in a fit of anger, put muriatic soid in his mother's coffee jar last Friday night. Mrs Calkins drank some of the coffee, but detected the bad taste before any harm had been done. The lad has been captured by the officer of the Humane society, and Police Judge Ernst is trying to find out the law that applies to such cases as this. Last Friday night Mrs. Calkins tried to correct the boy and the lad snatched a piece of wood from her hand and dealt a piece of wood from her hand and dealt her two severe blows. She finally subdued him and gave him a spanking with a store shovel. An hour or so later she started to make the coffee for supper, but noticed that it curdled when milk was applied. She drank some and it tasted bitter. Then she discovered that a hottle half full of muriatic acid was missing from a shelf, and found the empty bottle in another part of the house. The lad had stood around watching the outcome of the act, and when his mother told him that she had drunk some of the coffee he cried:

"Did you really drink it? Will it kill you?" and ran out of the house.
When found to day the boy was led to confees that he put the poison in the coffee to get even with his mother for having punished him.

The day was perfect, just such a one as tempts persons to drive into the country, and at I o'clock the President and Mrs. McKinley and Mr. and Mrs. Abner McKinley started out in one of the family carriages, returning two hours later. After dinner this evening a number of the President's friends called to pay their respects. He is looking exceeding; well, notwithstanding his pallor, which is said to have noticeably increased since he shouldered the cares of war. He says that he has suffered from the intense heat at Washington, and hopes to be strengthened and refreshed by a few days rest and quiet. His rest is constantly disturbed, however, by the receipt of telegraphic messages from the national capital, a direct line having been connected between the White House and this place yesterday.

House Hired to Hold the Plans for Her Buildings for California University.

San Francisco, Cal., Aug. 28 - Mrs. Phoebe Hearst recently set aside a liberal sum for designs for new buildings which she intends to erect for the State University at Berkley. The plan is to make these the finest university buildings in the world. She arranged to have designs submitted this month at Antwerp. More than 100 plans have been sent in from all parts of the world. According to aprinted prespectus sent out by the regents, the plans were to be submitted inclosed in tin cases of uniform size, but when the cases of all shapes and sizes began to pour in on the American Consul at Antwerp, who had agreed to care for the plans, he grew alarmed, and when one came in a piano box he gave up in despair.

As no bank in Amsterdam could be found willing to house the plans, the commissioners in charge finally hired a building. The body was that of Private William Stricker, who died was that of Private William Stricker, who died at Fort Myer Hospital of typhoid fever. Never hefore has there been such a funeral cortege in this city. Not only did nearly everybody in this city turn out, but from Canada came four fire companies to pay tribute to the dead soidier. They brought a band with them and its dirge was particularly affecting, coming as it did from a people who live under another flag than that in which the body of the dead was wrapped. When Stricker's body reached here its condition was such as to cause great indignation. The dirt on his face showed the marks of his fingers in an attempt to whee his fevered brow. Ho died in the clothes in which he left home.

Bedford Avenue Poor for Bicycle Riding. Bedford avenue, Brooklyn, remains in a shamefully lumpy condition that is keeping many New York riders away from the Coney Island cath. A member of the Kings County Wheelmen said yesterday as he rode over it: "This is almost as bad as when there were cobble stones at every railroad crossing, and in the high wheel days I was the only member of the club who was able to ride the length of Bedford avenue without a dismount. It was in the nature of a contest at that time and it continued for more than a year, all the boys boasting about how far they could ride on that avenue without getting off the wheel or taking a header. LESSONS TAUGHT BY LAST WEEK'S OPEN TOURNAMENTS.

Have Reene, Thorp, Blair, Reid, Goldfinch and Lynch Earned the Right to a Place in the Qualifying Round?—Schedule of the Morris County Club—Entries for Newport. Now that the championship is only two weeks way, the golfers are full of curiosity to learn the precise "form" of the leading amateurs With this end in view every table of tourns ment scores is studied by strokes. Every short-coming is weighed and every good performance oted. In this way the open tournaments of the past week have been fruitful in results. Many of the probable amateur championship candidates were in the different events and nly few came out with augmented reputations At Bar Harbor J. G. Thorp was tried and not nd wanting, for he allowed six strokes to

Condon in each eighteen holes and begin him in the Hinkle Cup finals, 4 up and 3 to play in thirty-six holes, while in the semi-finals he beat A. M. Robbins on even torms. Robbins ever since he best True in the finals at the Morris County Golf Club last fall has been considered a championship possi-bility. What made Thorp's play more mer-Itorious was that Condon, on the same handi-cap, had won an earlier match from H. C. Leeds, who led all the amateurs in the open ehampionship. Thorp, who was second to Whigham in the amateur championship last year, failed to qualify in the first sixteen at Chicago. He is now on his game and may receive a chance to gain a place in the elect this year, but neither Robbins nor Leeds played as well at Kebo Valley as they are expected to do on the long and open course at Morris County. A more sterling championship performance was scored by T. Markoe Bobertson, at Stockbridge, when he ousted W. T. Gray from the possession of the Stockbridge Cup, beating in J. F. Curtis and Joseph Choate. Jr. The three will be at Morris Choate. Jr. The three will be at Morris County, where, although Robertson has a very pretty style, Curtis may redeem himself. Another man who will be after Curtis's scalp at Morris County will be John Reid, Jr., who beat Jasper Lynch in the Saratoga Cup finals on Saturday. When they met in the finals of the intercollegiate championship, Curtis beat Reid most decisively, and the latter has since been eager to gain revenge. Judging by the course record of 168 made by Waiter J. Travis on Aug. 3, when he beat J. A. Tyng at Morris County by 6 up and 5 to play in thirty-six holes, both Reid and Lynch will have to improve a dozen strokes to win the gold medal in the qualifying round of the amateur championship. Both, however, should qualify on their Saratoga scores. At Chicago last year C. B. MacDonald won the gold medal with 174, and, twenty-three strokes away, the last man of the first sixteen scored 197. This year the critice expect that about 165 will be the low and 165 the high score to qualify, if the weather is fair. J. I. Blair, Jr., on his Englewood play, showed himself in the championship class. So, too, in a very pronounced way, did Foxhall Keene, on Saturday, by making the Newport thirty-six-hole round in 170. The Narragansett Pier tournament brought an outsider to the front. Lieut. Gold-finch, who may be one of the qualified, for in successive rounds in the President's Cup match he beat M. J. Wright, a high-class man, and C. Hitchcock, Jr., who had won the gold medal with 75, and thereafter swept all before him in match play until he met Goldfinch in the finals. The best four of the Chicago players who will be at Morris County, according to C. Lawrence Perkins, who has just returned from a trip to Wheaton, are C. B. MacDonald, H. H. Shearson, Walter B. Smith and E. I. Frost. County, where, although Robertson has

The Ardisley Club has asked the U. S. G. A. to assign Oct. 11, 12 and 13 for the women's championship. The request will be granted without doubt, but, as the Country Club of Westchoster open tournament is fixed for Oct. 13, 14 and 15, many golfers would prefer to see the commencement of the women's championship put forward a day. The Ardisley players who intend to compete at the Country Club are particularly urgent in the matter, for, as it is now, they must either miss the finals at Ardsley or forfeit their chances at the Country Club.

Burgo Takes Casey's Place and Faces

Becker at the Pelican A. C. At the Pelican A. C. on Saturday night Ref. eree Frank Hearald declared the twentyround bout between Larry Becker of Bayonne and Walter Burgo of Boston a draw. Becker did all the work, and his superiority was so manifest that the crowd wondered how the referee could render such a decision. Burgo weighed fully twenty pounds more than Becker and only led in about two rounds. Fred Mayo of Brooklyn and "Pinky" Evans of Yonkers, at 112 pounds, for ten rounds, furnished the first preliminary. The decision was a draw.

The principals in the next essay, also for ten rounds, were Harry Petersen of New York and Tommy Ryan of Philadelphia. They fought at eatch weights. This was a singging match, with an occasional injection of science. Petersen did most of the foreing in the earlier stages of the match, but Ryan was quick as a flash, and easily offset any advantage by smashing Petersen with right and left. Petersen seemed to weaken under the punishment, and hugged quite often. Petersen woke up in the last few rounds and held his own by playing for Ryan's body. Ryan made a good raily, though, and scored some stiff knocks. The verdict was a draw.

Frank Casey failed to pass muster of the club's physician, who said that Casey had contracted typhoid fever through rooming with his brother, who is a member of the Twelfth Regiment and who has just returned from the Santiago campaign. Waiter Burgo of Boston was substituted to meet Becker of Bayonne, who was originally chosen to face Casey. Walter Burgo of Boston was substituted to meet Becker of Bayonne, who was originally chosen to face Caser. Burgo and Becker-elashed at catch weights. Burgo was in poor shape, but he surprised everybody in the first round by mixing it up in great style. He touched up Larry's nose until that member assumed a flery hus seemed anxious to mix it up in the second and Burgo accommedated him. They fought all over the ring and kept the crowd in a tumuk of excitement. When Becker erged from the tray he was bleeding from crowd in a tumult of excitement. When Becker emerged from the tray he was bleeding from the nose. Fast fighting characterized the third round. Becker was on top of his adversary all the time, piling blow after blow into Burgo's body and inw. Becker was very aggressive in the fourth. He pounded Walter's stomach, doubling the latter up several times like a jackknife. Burgo stood the gaff well, and crossed Becker on the jaw twice. Burgo shook Becker up in the fifth, but his poor condition prevented him from following up any advantage. Becker peppered away at Burgo in the next four rounds, but all the beating he gave his rival did not seem to even feare the Bostonian. Becker kept up his aggressive fighting to the end, yet the decision was a draw.

What Sam Fitzpatrick Says of McCov. Sam Pitmatrick and Jack Daly arrived from Sam ogs last night. Daly appears in good trim, and says

that he was never in better health. Sam has been with Kid McCoy for nearly a month acting as the lar ter's trainer. Regarding the Kid's condition, San "McCoy is as fine as silk. He is ready to go into the ring to-morrow if necessary. I've been behind many bovers, but I never was so enthusiastic over a man as I am over McCoy. I cannot see how Corbett can beat him. I think the affair will be over inside of twenty rounds."

Fed Live Kittens to Storks.

SAN FRANCISCO, Aug. 28 - Indignation has been caused by the discovery that the Japanese proprietor of a tea garden in Golden Gate Park feeds live kittens to the tame storks kept on exhibition there. The discovery was made on exhibition there. The discovery was made by two indies who were visiting the Garden. They heard the wails of a kitten and went to investigate, finding big storks tearing kittens in pieces and eating them. It was reported to the authorities, who made an investigation and learned from the Jarse that the story was absolutely true, although the Orientals said that it had never been done before. The ladies refused to prosecute, so the case was dropped.
